

Subject: Request for financial support for the 2nd congress of Actuaires du Monde in Dakar (Senegal) – scheduled beginning of May 2023

Actuaires du Monde (AdM) is a non-profit organization that provides temporary and voluntary assistance to emerging and developing countries in actuarial and risk management. Recipients of these services include, among others, actuarial students and public entities.

After the successful congress in Skopje, AdM will organize the 2nd congress scheduled for 2 & 3 May 2023 in partnership with the Institute of Actuaries in Senegal (Institut des Actuaires du Sénégal (INAS)) and the « Institut Interafricain de Formation en Assurance et en Gestion des Entreprises" (IFAGE) in Dakar. The theme of the congress is 'Promoting financial inclusion', and a 'Call for presentations' is attached.

An event of this magnitude incurs substantial costs. Thus, AdM is seeking financial aid from actuaries, finance/insurance industry stakeholders and international organizations. With a gift of 2500 euros or more, the company's name and logo can appear on one or more communication and signage media: conference webpage, meeting program, banners, badges, etc.

In the hope that you will be sensitive to our request and make a donation.
