

Zurich, June 2026

Invitation to the 117th General Assembly of the SAA

Dear actuaries,

It's that time again: The General Assembly of the Swiss Association of Actuaries will take place this year on Friday, September 4 and Saturday, September 5, 2026 at Kongresshaus Zurich, Gotthardstrasse 5. We are very pleased to invite you to this event. As in previous years, we have prepared a varied program.

Here are some highlights we wish to share with you in advance: We are delighted to start Friday with a program from the Sustainability Working Group, as well as a roundtable from the Women's Actuarial Network, for those who wish to participate starting in the morning.

In the afternoon, as usual, three conference sessions will take place, covering a wide range of topics, including Solvency, AVS 2030, and the role of actuaries in qualitative risk management. The subjects of "AI" and "Private Markets" will also be addressed.

On Saturday, we are pleased to announce that after the statutory part, a series of interesting lectures will be held. Of particular note are the presentations by Urs Arbter, CEO and chairman of the executive board of the Swiss Insurance Association, and Marc Sarbach, chief actuary at Mobiliar.

Additionally, the program will include Summer School activities, an interview with two board members, and the election of a corresponding member. We also look forward to the report from our board colleague Peter Blum, who will present the progress of the "Actuarial Data Scientist" project within SAA.

Relevant documents, such as the president's report, the annual financial statements, and other information, are regularly posted to your Member Account on the SAA website.

We are especially looking forward to sharing with you the festive dinner on Friday evening in the garden hall of the Kongresshaus. The diplomas of the colloquium graduates will be presented on this occasion. DJ Giuseppe Cortone will provide the musical entertainment and invite us to dance.

We kindly ask everyone to register electronically for the General Assembly no later than the end of July 2026.

We are very much looking forward to many inspiring conversations and lively exchanges.

Yours sincerely,
Swiss Association of Actuaries

Sabine Betz
President

Anja Göing-Jaeschke
Vice President
